#### Dear Shareholders,

I am writing to you on behalf of our Board of Directors and Executive Management team to provide you with a report on the financial condition and results of operations for the first quarter 2023. The banking environment is marked by the news of recent bank failures and uncertain economic conditions which provide definite head winds as we approach the year ahead. The first quarter of 2023 has provided an economy with the continued rising of interest rates as the Federal Reserve battles inflation. Operating during an economy of this type continues to require us to be nimble and focused on the task of meeting ever challenges of today and the changing needs and expectations of our customers.

During the first quarter of 2023, the Bank's net income of \$708 thousand represents a decrease of \$49 thousand (-6.5%) compared to 2022 first quarter earnings. This resulted in return on average assets of 0.91%. Interest and fees on loans increased by \$495 thousand due to loan growth of \$29.6 million in 2022, with a current composite yield of 5.07%. Interest expense increased by \$368 thousand given the sharp increase in interest rates and the current rate environment. Net interest income for the first quarter of 2023 stood at \$2.58 million compared to \$2.46 million for the first quarter of 2022, and resulted in a tax-equivalent net interest margin of 3.40%.

The Bank experienced a growth in total assets of \$1.6 million (0.51%) as of March 31, 2023 compared to December 31, 2022. The Bank has also experienced deposit growth of \$2.5 million as competition for deposits have remained prevalent. Due to rising interest rates, loan demand has remained fairly flat with total outstanding loans net of reserves at \$214 million. Capital ratios for the Bank continue to remain very strong given our total capital ratio of 18.95% as of March 31, 2023, which is well above the average ratio for peer banks. This excess capital helps ensure that we have a firm foundation to meet the challenges the future may bring.

Beginning in 2023, the Bank adopted the use of the Current Expected Credit Loss (CECL) methodology for accounting for estimating allowances for credit losses. This is an accounting standard change required by the Financial Accounting Standards Board (FASB) and replaces the Allowance for Loan and Lease Losses (ALLL) accounting standard. This new standard has required larger reserves based on the new analysis. Implementation has gone well and the bank will follow this new allowance process going forward.

I remain extremely appreciative of our directors, officers and employees that continually endeavor to ensure that our customers' needs are met. We are not only a premier bank, but also a responsible employer and valued community partner. We value you, our shareholders, and the role you play in allowing our Bank to do what we do so well. Thank you for your support. It is great to be a part of this wonderful institution known for community banking.

Sincerely,

John R Callwell
